## Check your Personal Details

1. Click the **More ...** icon at the bottom of the screen to open the More Options screen as illustrated below.

2. Select **My Personal Data**

3. Check information contained within your **Personal Data**, making any amendments as required.

4. In My Personal Data, ensure **Add to Venue Directory** is on – this is your permission for your name to appear in the members' directory for tee bookings by yourself and other members.

Go through each item in the **More Options** window to familiarise yourself with content of the More Options section.

When in one of the above items, press **<Back** at the top left-hand side of your screen to take you back to the **More Options** window.

The menu at the bottom of the page allows you to navigate the system. The Home page is where you can access the tee sheets to book a tee time – we will be issuing guidance on how to book a tee time in the very near future. The aim of this guidance is purely to aid members in downloading and initially using the App.
